Genesis 6:14-15 tells that God told Noah to build an ark. He told Noah: "Make thee an ark of gopher wood; rooms shalt thou make in the ark, and shalt pitch it within and without with pitch. And this is the fashion which thou shalt make it of: The length of the ark shall be three hundred cubits, the breadth of it fifty cubits, and the height of it thirty cubits." If a cubit is about 18 inches, how big was Noah's Ark in the measurements that we use today?

_____ long (300 cubits)

_____ wide (50 cubits)

_____ tall (30 cubits)

None of us can measure up to God's perfect, sinless standard—no matter how many rules we follow and how many good works we do. However, God provided a way for us to be righteous in His sight. According to 2 Corinthians 5:21 and other Bible verses, how can you measure up to God's standard?

Are you in Jesus Christ and righteous in God's sight (the righteousness of Jesus), or are you outside of Christ and unsaved?

According to 1 Kings 10:14, King Solomon received about 666 talents of gold per year. How much would that gold weigh in pounds?

If gold is \$2,600/ounce, or \$41,600/pound, how much would Solomon's 666 talents be worth in dollars today?

Yet, you are more precious to God than Solomon's gold! You are so valuable and precious to God, that He bought you with a great price. He certainly does not want any one to perish eternally. How valuable are you to Him?

How precious is He and His Word to you? He has proven His love for you. How have you proven your love for Him?

Do you have any comments or questions? Are there any ways in which we can pray for you or help in any way?

Do you have a family member or friend who would like to sign up for this Bible course? If so, please fill out the form below and we will send him/her the first lesson in this course.
